

laplander

NATO number: 5110-25-147-4344

- Strong construction with a continuous curve and a thin, non-wobbling blade for increased steadiness.
- Length unfolded: 40 cm (15.5").

- Safety locking button to keep the blade locked when folded and unfolded, preventing the blade from opening accidentally and holds it fixed open when in use.

- Compact and lightweight, only 190 g (6.67 oz), allows you to carry with you everywhere!

- Practical belt and wrist leather lanyard for carrying

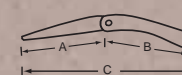

- High quality steel blade, made in Sweden, with the same black powder coating as in our legendary Superior handsaws, for low friction and rust prevention.
- Designed for cutting in both directions, push and pull cuts.
- Replacement blades available.
- Blade length: 19 cm / 7"

- Precision ground aggressive teeth, XT hardpoint tooting, 7 TPI, for a quick, straight and reliable cut.

- Foldable for practical storage in your pocket, backpack etc.
- Safe storage to reduce risk of injury or damage
- Length folded: 23 cm (9")

- Non slip two-component rubber grip handle for increased comfort and stability

The Laplander Assortment

The Laplander saw and knife are ideal for outdoor activities. The foldable Laplander saw cuts a variety of material, for example dry and green wood, plastic and bone and is excellent for cutting firewood, for splitting wood and for clearing paths. It suits professionals and anyone being active in the woods; fishermen, hunters and rangers, campers, wildlife enthusiasts and hikers and gardeners and is practical for everyone to keep in the car or in the boat. This versatile saw is moreover used by a number of international military units and is NATO classified. The saw is strong and durable with a smart and safe design, quick and comfortable to use.

The Laplander assortment also includes a robust multipurpose knife with a stainless steel blade and two-component handle for a variety of tasks such as meat cutting, fish cleaning, wood carving, paper cutting and for preparing meals outdoors.

Two-component handle for comfortable use and a safe grip

Supplied with a practical holster for belt carrying

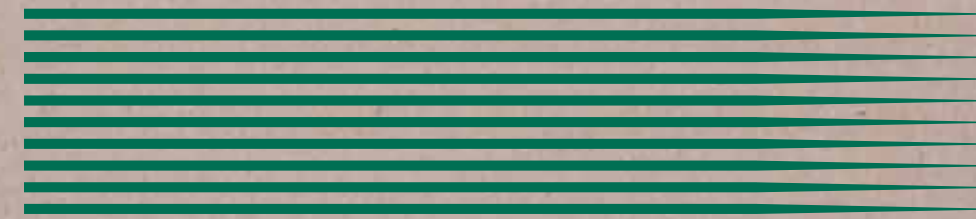

Overall product length 22 cm, blade length 10 cm

Solid stainless steel blade for multipurpose use

A MUST HAVE
